SUMMARY

Computer Engineer with expertise in web development, Angular, STM32 programming, and sensor integration. Passionate about leveraging innovative technologies to create impactful applications.

- Proficient in Angular for building fast, scalable, and user-friendly web applications, and skilled in STM32 programming for embedded systems and sensor integration.
- Strong problem-solving abilities with attention to detail, consistently delivering high-quality results.
- Experienced in collaborating with teams and clients to create tailored solutions that exceed expectations.
- Always eager to learn and stay updated with the latest trends to develop innovative tools and applications.

PROFESSIONAL EXPERIENCE

Founder & Team Lead | LeanTech

Jan 2024 - present

Founded and led a startup focused on building innovative products using STM32 microcontrollers. Assembled and managed a skilled team to develop solutions utilizing GPIO, UART, I2C, SPI, and other embedded system technologies. Coordinated product development from concept to implementation, driving the creation of high-quality, reliable products.

Angular Developer at WebCraft Solutions

June 2024 - present

- **Engaging UIs:** Designed and built easy-to-use user interfaces to enhance user experience.
- **Optimized Performance:** Developed fast, optimized web apps to ensure quick load times and great performance.
- **Responsive Design:** Created mobile-friendly, responsive designs accessible to all users.
- **Transparent Communication:** Maintaining open dialogue for project alignment.
- **Effective Problem Solving:** Swiftly addressing challenges to ensure progress.
- **Timely Delivery:** Meeting deadlines with high-quality work.
- **Collaborative Approach:** Worked closely with clients and team members to align goals and deliver projects on time.
- **Continuous Improvement:** Stayed updated with new Angular trends and used them to improve app quality and efficiency.

IT Specialist at MyOffice

June 2023 - Nov 2023

- Managed IT systems to ensure smooth operations and provided tech support to employees.
- Set up and maintained network infrastructure to improve security and performance.
- Handled software deployment, implemented security protocols, and managed backups.
- Created user guides, provided training, and built strong relationships with vendors.
- Successfully resolved IT issues within deadlines to avoid interruptions in company operations.

ACHIEVEMENTS

Google Solution Challenge Hackathon

- Worked with a team to build a full-stack solution using Angular for the frontend and Firebase for the backend, improving data processing and user experience.

17 Dec 2023

TechXplore - TBC Hackathon for Innovative Ideas

- Developed an application with Angular for the frontend, Java Spring Boot for the backend, and Python for AI-driven features.

18 Oct 2024

SKILLS

Technical

- AngularTS | ReactJS
- Cybersecurity & Ethical Hacking
- AWS | Azure
- STM32 | GPIO, UART, I2C, SPI
- C | C# | C++ | Java | Python/ML
- Cybersecurity Tools & Platforms
- Efficiency & Workflows

Soft

- Exceptional time management and punctuality
- Strong problem-solving and analytical skills
- Highly responsible and goal-oriented
- Strong communication and leadership skills

Certifications

- Responsive Web Design
- JavaScript Algorithms and Data Structures
- Front End Development Libraries
- AWS Security Certified Solutions Architect
- CompTIA Security+

EDUCATION

2019 - PRESENT

University Of Georgia

Expected Graduation: May 2025

Bachelor of Science in Computer Science

LANGUAGES

- **Georgian:** Native
- **English:** Fluent
- **Russian:** Advanced
- **German:** Intermediate
