SUMMARY

Detail-oriented Angular Developer with strong expertise in building scalable, performant web applications using Angular, TypeScript, and RxJS. Experienced in designing clean UI components, implementing responsive layouts, and integrating APIs for seamless user experiences. Skilled in modern development workflows including Git, Firebase, RESTful services, and agile collaboration. Known for a problem-solving mindset, strong communication skills, and a commitment to writing clean, maintainable code. Passionate about staying ahead of frontend trends and continuously improving as a developer.

PROFESSIONAL EXPERIENCE

Angular Developer at WebCraft Solutions — June 2024 - present

Built scalable Angular apps using TypeScript, Angular CLI, and RxJS with a focus on modular architecture and maintainable code. Developed reusable UI components with Angular Material, implemented reactive forms, and integrated REST APIs with HttpClient. Optimized performance via lazy loading and efficient change detection. Collaborated in Agile teams using Git and Figma, and adopted latest Angular features like standalone components and signals.

Embedded Systems Team Lead | LeanTech — Jan 2024 - present

Led a engineering team in building embedded system prototypes using STM32 microcontrollers. Managed development cycles from planning to implementation, utilizing GPIO, UART, I2C, and SPI interfaces. Ensured timely delivery, technical quality, and team coordination throughout the project lifecycle.

IT Specialist at MyOffice — June 2023 - Nov 2023

- Managed IT systems to ensure smooth operations and provided tech support to employees.
- Set up and maintained network infrastructure to improve security and performance.
- Handled software deployment, implemented security protocols, and managed backups.
- Created user guides, provided training, and built strong relationships with vendors.
- Successfully resolved IT issues within deadlines to avoid interruptions in company operations.

ACHIEVEMENTS

Google Solution Challenge Hackathon
Built a full-stack web app using Angular (frontend) and Firebase (backend) to process and visualize user data.
17 Dec 2023

TechXplore - TBC Hackathon for Innovative Ideas
Developed a feature-rich app with Angular, Java Spring Boot, and AI modules in Python for intelligent recommendations.
18 Oct 2024

SKILLS

Frontend Development
- Angular (v17+), TypeScript, RxJS, Angular Material
- HTML5, SCSS, Responsive Design (Flex Layout, CSS Grid)
- RESTful APIs, Firebase (Auth, Firestore, Hosting)
- Git, GitHub, Agile (Scrum), Figma

Programming & Embedded Systems
- STM32 (GPIO, UART, I2C, SPI), C, C++, CMSIS
- Python (Scripting, Machine Learning basics)
- Real-time embedded systems (FreeRTOS, CMSIS), firmware debugging

Backend & Full-Stack
- Node.js (basic), Express, Firebase Functions
- Java (Spring Boot), C# (.NET Core), Python (Flask, FastAPI)
- MySQL, PostgreSQL, MongoDB

Soft
- Strong problem-solving and analytical mindset
- Excellent time management and teamwork
- Goal-oriented, reliable, and eager to learn

DevOps & Tools
- Docker, Kubernetes (Basics), CI/CD (GitHub Actions, Netlify)
- AWS (EC2, S3), Azure (Basics), NGINX, Linux CLI

Certifications
- Responsive Web Design
- JavaScript Algorithms and Data Structures
- Front End Development Libraries
- **AWS** Security Certified Solutions Architect
- **CompTIA** Security+

EDUCATION — 2019 - PRESENT

University Of Georgia

Expected Graduation: May 2025

Bachelor of Science in Computer Science

LANGUAGES

- **Georgian**: Native
- **English**: Fluent
- **Russian**: Advanced
- **German**: Intermediate
